Retail Countertop Sneeze Guard

WHENEVER YOU NEED US, WE'RE THERE.

When current trade restrictions are relaxed, businesses may be looking towards implementing protective measures for their staff and customers within their trading environments.

The rapid spread of coronavirus means essential businesses have had to implement fast, effective solutions to enable them to continue transacting and providing for their communities safely.

Many other businesses are having to consider ways they can modify their stores and trading environments to practice ongoing social distancing measures when the government lockdown lifts.

The retail sneeze guard is an acrylic screen guard ideal for retail and other transactional settings.

These screens have been built to help reduce the spread of contagious airborne germs commonly spread by coughing and sneezing, mitigating the risk to staff in customer-facing environments.

Providing a visible barrier during face-to-face interactions with customers means regular business can be conducted as safely as possible, whilst maintaining separation of personal space.

As an agile partner, Vista Retail Support can manufacture, source, deliver and install these screens upon request.

Reduce the spread of airborne germs at the point of sale

Vista Retail Support can provide a range of retail sneeze guard solutions based specifically around your business requirements. Made from high quality clear acrylic, these screens come in a number of sizes, including:

- 50cm wide
- 60cm wide
- 75cm wide
- 90cm wide

The screens are manufactured in South Wales from 4mm thick acrylic, which is designed for retail with a serving hatch at the base to transfer cash and receipts as well as pass Chip and Pin devices to your customers. The standard sneeze guard has four fixing points to secure to a countertop and is ideal for use in checkout areas, pharmacies and retail stores.

We are aware that these designs may not fit each store environment. So, we are happy to work with our customers to design screens that are suitable to your environment or fabricate from designs you may already have.

Sneeze guard installation services

Vista's team of highly experienced IMAC engineers are also on hand to install these protective screens throughout the UK and Europe. If you are planning social distancing or virus spread prevention measures in your stores, we're here to support you with the right solution for your environment. If you have already selected a product that is right for you, then we are happy to deploy these for you.

High Quality Guaranteed

The retail sneeze guard is built from durable, clear acrylic which is designed to meet the requirements of high traffic retail environments.

Safeguard Your Interactions

Reassure your staff and customers with a visible barrier that allows for the transfer of items or payment transactions, free of contact.

Protect Your Employees

Help mitigate the risk of unintentional exposure to respiratory droplets such as a sneeze or a cough during transactions.
